In re Application of :  
William Reynolds Stark :  
Application No. 10/737,329 : ON PETITION  
Filed: December 17, 2003 :  
Title: Root Zone Injection Surface :  
Irrigation System :

This is a decision on the paper filed February 8, 2006. ("dated" February 4, 2006), which is being treated as a renewed petition to withdraw the holding of abandonment under 37 CFR 1.181.

The renewed petition under 37 CFR 1.181 is **DISMISSED**.

The above-identified application became abandoned for failure to timely file a response to the Office action mailed January 26, 2005, which set a shortened statutory period for reply of three (3) months. Applicant filed a response on April 29, 2005. However, the response did not include a one month extension of time, and therefore was not timely. Accordingly, the application became abandoned on April 27, 2005. A Notice of Abandonment was mailed on August 31, 2005.

On October 20, 2005, Applicant filed a petition to withdraw the holding of abandonment, arguing that he deposited the response on April 26, 2005. In support thereof, applicant included a copy of a receipt, showing that some correspondence was mailed to Alexandria, Virginia (Zip Code 22313) on April 26, 2005.

However, the petition was dismissed in a decision mailed on January 19, 2006. The decision outlined the two procedures available to applicants to ensure that papers filed with the US Patent and Trademark Office are considered to be timely filed. The first was the US Postal Service Express Mail provisions pursuant to 37 CFR 1.10. The other procedure was the Certificate of Mailing or Transmission procedures pursuant to 37 CFR 1.8. The decision then explained that because the response filed April 29, 2005 was not filed via US Postal Service Express Mail or with a Certificate of Mailing or Transmission, the response was not timely filed.

On renewed petition, petitioner has argued that the USPTO's rejection of his correspondence due to a mailing deficiency is unlawful. Suffice it to say, the courts have not found such arguments to be persuasive. In fact, the courts have found that where there is an unexpected failure, imperfection, or fault with a mail agency, such grounds may constitute a grantable petition to revive an abandoned application pursuant to the unavoidable delay provisions of 37 CFR 1.137(a). See In re Mattullath, 38 App. D.C. 497, 514-15 (1912). Here, however, there was no "mailing deficiency" with respect to the US Postal Service. The deficiency was one entirely of petitioner's doing. Petitioner states that he was unaware of the USPTO's requirements of Express Mail or Certificate of Mailing. It is petitioner's responsibility to familiarize himself with the laws, rules, and procedures of the United States Patent and Trademark Office. Furthermore, the Office action mailed January 26, 2005, on page 11, specifically informed petitioner of the benefits and requirements of the Certificate of Mailing provisions under 37 CFR 1.8. A copy of the page is enclosed for petitioner.

Petitioner is recommended to promptly file a petition to revive under 37 CFR 1.137(b). A grantable petition pursuant to 37 CFR 1.137(b) must be accompanied by (1) The reply required to the outstanding Office action or notice, unless previously filed; (2) The petition fee as set forth in 37 CFR 1.17(m) - currently \$750 for a small entity; (3) A statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to this paragraph was unintentional. The Commissioner may require additional information where there is a question whether the delay was unintentional; and (4) Any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required pursuant to paragraph (d) of this section. A copy of the form for a petition under 37 CFR 1.137(b) is enclosed for petitioner's convenience.

**Any delay in filing a petition under 37 CFR 1.137(b) may be considered by the Office to be intentional delay.**
